

## Agenda

- 17-02 t/m 03-03** Springvacation
- 04-03** First day at school after spring vacation
- 04/03** Cito Leerling in Beeld results will be given home
- 11/03** Week of the resultinterviews
- 11/03** Groups 3 visit the library
- 12/03** Groups 5 and 6 visit the Hermitage
- 15/03** Newsletter 9

*Tip: In Social Schools, under calendar, you can also find important activities and days off for the upcoming period.*

## Parent satisfaction survey

During the week of February 5, the parent satisfaction survey was administered. We received back approximately 68% of the surveys. Thank you to all the parents who took the trouble to do this. The average grade that came out of it was an 8.3. This is a very high mark. We hope that if anything happens in the future that you have questions or concerns about that you will know how to find us even then. Of course, the route is to talk to the teacher first.

For our children, it is important that we as a school work together with the parents and children so that the children can develop as best as possible.

## Monitor sociale veiligheid leerlingen

A survey was also administered to students in the past week. Every year we take the Social Safety Monitoring Survey from students in grades 6-8. Here students answer questions about how they like it in the classroom and what they think of the lessons. This can also be found on [www.scholenopdekaart.nl](http://www.scholenopdekaart.nl). The students give Cloverleaf a good grade of 7.8!

## Week of parents drop-in

Last week again many parents visited the school at parent drop-in. Great to see so much involvement!

## Tests and resultinterviews

The past few weeks saw the testing period of CITO Leerling in Beeld for grades 3 through 7. Leerling in Beeld (LIB) is a student monitoring system. A student monitoring system is a program that gives teachers insight into the development of students. This is at the individual level, but also at the group and school level. We use this insight to best align the educational offerings with the educational needs of the students and the group. Learner in Focus is new to us and to the children. The

student profile that you will receive from us after spring break looks different from what you are used to from previous years. In the other attachment you will see an example of data that can be found on the student profile. Through the links below you will find even more information about LIB:

beeld/#uitleganimatie](https://cito.nl/onderwijs/primair-onderwijs/voor-ouders/leerling-in-beeld/#uitleganimatie)

### Invitation via Social Schools

After spring break, results will be given with your child. Some parents will receive an invitation for an interview. If you have not received an invitation, but would like to have a conversation about this, please sign up for an appointment with the teacher the week of March 4. Signing up for an appointment goes through Social Schools. Conversations about the results will take place the week of March 11.

### Doorstroomtoets group 8

On Wednesday, Feb. 7 and Thursday, Feb. 8, our grade 8 students took the Transition Test. In the week of March 11 we expect the results. The parents of the students in group 8 will of course be informed when this is the case and how the children did.

### Spring vacation

Because we have scheduled a study week following spring break, students' spring break will last two weeks. Friday, Feb. 16, is the students' last day before spring break begins.

During the study week, there will be room for the team to work with the results of the Cito Pupil in View tests. Also that week there will be attention to sharpening our bullying protocol, digital literacy lessons will be prepared for the next half year and more activities to continue to strengthen the quality of our education.

We then expect the children back in school on Monday, March 4.
