Drempelonderzoek group 8

In the week of 28 September, the Drempelonderzoek will be conducted among the pupils of group 8. The Drempelonderzoek is a didactic study with the components of technical reading, language care, vocabulary, reading comprehension and arithmetic. The Drempelonderzoek is used in addition to the results of the Flow Test and previously taken tests to arrive at a sound school advice. The results of this are of course shared and discussed with the parents, because they are part of the development of the school advice.

Children's Book Week

On Wednesday 30 September, the Children's Book Week will start again.

The theme of Children's Book Week 2026 is 'Spot on!' and is all about theatre, music, performance and stage animals.

Reading books contributes to the development of your child. Children learn to put themselves in someone else's shoes, get a better sense of language and their vocabulary increases. Knowledge of the world is also increasing. This is enormously helpful in the development of your child. We especially encourage you to make time to read with your child and go to the library and discover together which book genre your child likes.

Student mediators

At Klaverblad we work with student mediators. This is an important part of our lessons at the Vreedzame school. The children learn what a conflict is, how it can arise and especially how they can solve it. All students learn this. The student mediators are students from groups 6 to 8. They support children during breaks when there is a conflict.

In the meantime, new mediators from groups 6 are being trained so that the team is complete again. Miss Ragnild and Miss Lilian train the new mediators from group 6.

The graduation ceremony will take place on Thursday 8 October. The parents of the qualified students will be especially invited to this. This will most likely take place at the end of the day. The new mediators are therefore immediately presented to all schoolchildren!

Looking back at the initial interviews

How many parents came by for the parent meetings last week! Thank you for your presence and involvement with your child. We believe that we can offer all children the best support by working closely with you as a parent/caregiver.

If for certain reasons it did not work out, you can still schedule an appointment with your child's teacher.
